

December 2021

NYC NonCitizen Voting Survey

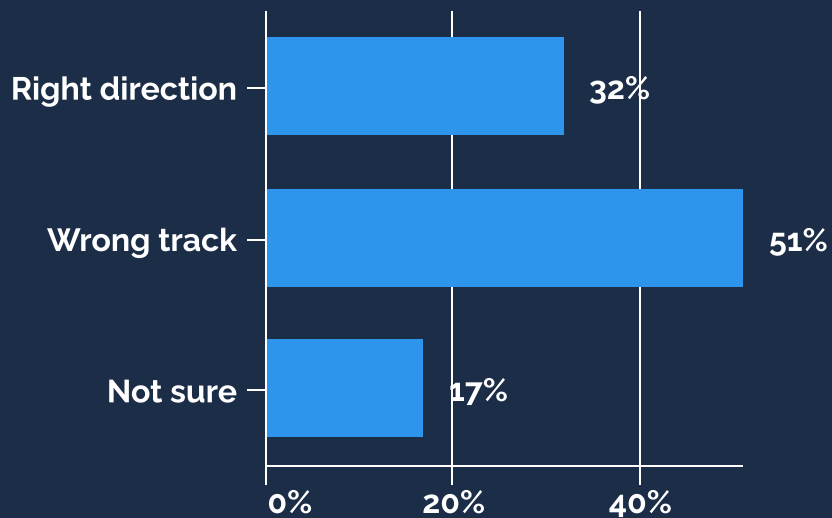

Survey conducted December 5 through December 6, 2021. 914 likely 2022 General Election voters participated in the survey. Survey weighted to match expected turnout demographics for the 2022 General Election. Margin of Error is +/-3.1% with a 95% level of confidence. Totals do not always equal 100% due to rounding.

Q1: Generally speaking, is New York City headed in the right direction or is it going off on the wrong track?

Right direction: 32%

Wrong track: 51%

Not sure: 17%
